EDUCATION

UNIVERSITY OF MICHIGAN School of Information |M.S. Information *User Experience Research & Design* May 2028

UNIVERSITY OF MICHIGAN School of Education |M.A. Educational Studies *GPA 4.0/4.0* Aug 2020

FERRIS STATE UNIVERSITY College of Business |B.S. Music Industry Management *GPA 3.9/4.0* May 2018

SKILLS

Research: User interviews, surveys, usability testing, heuristic evaluation, qualitative synthesis, stakeholder research
Product Design: Human-centered design, design thinking, product discovery, iterative design

PROFESSIONAL EXPERIENCE

UNIVERSITY OF MICHIGAN Athletic Department | *Learning Specialist & Program Coordinator* Oct 2023–Current

- Recruit, onboard, train, supervise, evaluate, and approve time for 200+ academic support staff annually
- Design and facilitate in-person and digital training modules that simplify complex workflows
- Maintain confidentiality and develop relationships working 1:1 with high profile DI student-athletes, adhere to NCAA bylaws, and balance multiple projects within program management responsibilities
- Identify friction in digital learning experiences via interviews, surveys, usability testing and heuristic evaluations
- Communicate stakeholder feedback and recommend usability improvements to Teamworks Scheduling Platform

PINELLAS COUNTY SCHOOLS | *Teacher & Professional Development Facilitator* Jul 2020–May 2023

- Designed accessible digital learning experiences and paired with in-person presentation design
- Evaluated classroom learning technology through qualitative observations
- Nominated for Emerging Teacher of the Year (2021–22)

PROJECT EXPERIENCE | University of Michigan

Washtenaw County ID Program | *Community-Centered Research* 2026

- Examine existing barriers in county-wide identification methods and address stakeholder needs
- Develop inclusive approaches designed to reduce stigma associated with the ID card

XR Product Concept Development | *Product Discovery & Go/No-Go Analysis* 2026

- Created a mixed-reality product concept using market research, Lean Canvas, and SWOT analysis
- Identified assumptions and proposed further customer discovery and concept testing to inform a Go/No-Go product decision while communicating design rationale

School Lunch Management Platform | *UX Design & Storyboarding* 2025

- Designed low-fidelity paper wireframes for a digital lunch order platform
- Developed a 20-panel storyboard illustrating the end-to-end lunch ordering experience

Teamworks Scheduling Platform | *Heuristic Evaluation & UX Research* 2024

- Evaluated Teamworks scheduling and communication features using Nielsen's usability heuristics
- Documented findings with severity ratings and developed recommendations to improve scheduling workflows

JetBlue Flight Booking Website | *UX Research & Usability Testing* 2023

- Conducted usability testing with 5 participants across 6 flight-booking scenarios
- Identified navigation challenges and developed recommendations for improving the booking experience

Coursera Learning Platform | *Heuristic Evaluation & UX Research* 2023

- Evaluated Coursera's discussion board interface using Nielsen's usability heuristics
- Identified 14 usability issues and developed recommendations for navigation, consistency, and error prevention

Blast Phonics Program | *User Interviews & Affinity Mapping* 2023

- Analyzed user interviews using affinity mapping to identify challenges within an educational phonics platform
- Synthesized qualitative findings to recommend improvements for student navigation and account management
